

## [Start Screen]

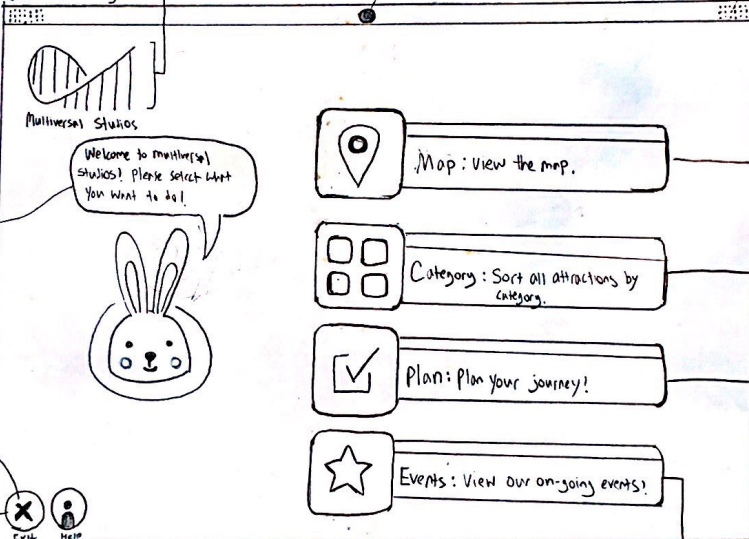

Upon choosing  
translate all  
details to chosen language

- Displays on screen  
- Sound delivers  
through the speakers

to close  
Small  
window pops  
out in the  
middle  
Upon clicking, goes back  
to Start Screen after  
prompting the user for  
confirmation.  
Yes → go back to Start screen  
No → close this window

## [Main Screen]

[CCTVs placed round the theme park and  
each attraction allows the system to recognize  
the previous users through face recognition system.]

When a previous user visits, the system  
loads the plan that the user has planned before.  
Also, system edits the plan by whether the user  
has visited the place already, as well as  
considering the time phase.
